## Concept

The simple IDEA behind a portable or mobile car wash system is to utilize the idle parking time at airports, shopping malls, cinema theatres, driving schools, rent-a-car companies etc. to clean the cars while owners are away to carry out their activities.

The result is an innovative, convenient and safe experience for customers at a fraction of the cost of a conventional car wash.

**DHYAN** AUTO Washing Equipment Trading supplies high quality portable car washing equipment and consumables at an affordable price.

## Washing Cart

The self-contained Mobile Unit includes all the necessary elements to ensure premium exterior hand car washes. The system does not have to be connected to water or electricity supplies, it is totally self-sufficient and is able to work all day without being refilled.

The Cart is very reliable, durable and attractive. It has two storage devices, a hose, a pistol nozzle,

compartments for accessories, manual sprayers, a low-pressure supply system and many other features.

The Cart contains biodegradable products that are not harmful to the environment. It saves water by using a minimal 2 Ltr of water instead of 250 litres used in conventional car washes.

Just one person operates a Cart and the average time to wash a vehicle is 20 minutes. Cars can be washed wherever they are parked, eliminating the conventional wash bay system as no water or waste traps are required. Furthermore, at motor dealers and repair centres, vehicles can be cleaned quickly - prior to being serviced, saving time.

## CAR CLEANING PROCEDURE

1

The Operator uses soft duster to wipe off the dirt from the Car.

2

The operator then uses Chamios leather with premixed water and shampoo solution to clean the Car.

3

A micro fiber cloth is used to dry the water from the body of the Car and windscreens.

4

Finally non-bio hazardous Polish is used to clean the tyre.

5

The whole process takes a maximum of 20 mins.

# GRP Car Wash Trolley- Model DAW100

Size : 1160 (L) X 550 (W) X 950 (H) Mm.

Finish: External Smooth Glossy Gel Coat Finish.

Internal Partition : 2 Nos.
